DETAILED ACTION

Applicants' communication filed on April 3, 2006, has been carefully studied by the Examiner. The arguments advanced therein are persuasive. In view of further search, however, a relevant document is found; therefore, a new rejection is set forth below. This action is **not** made final.

Specification

1. Applicants' cooperation is requested in correcting any errors of which applicants may become aware in the specification.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claim 12 is rejected under 35 U.S.C. 102(e) as being anticipated by Hawk (U.S. Patent 6,550,281).

With respect to claim 12, Hawk (figure 2) discloses a method for controlling a spin imparted on an optical fiber comprising the steps of imparting circumferential spin on a high-temperature optical fiber (106) drawn from a perform (100); obtaining dispersion pattern data peculiar to the spun optical fiber (106) from scattered light naturally generated from the spin imparted on the optical fiber (106) and controlling rate and period of the spin imparted on the optical fiber (106) on the basis of the obtained dispersion pattern data (see column 1, lines 53-62 and column 3, lines 21-45).

FIG. 2

Allowable Subject Matter

4. Claims 1-11 and 13-19 are allowed.

Please see the reason for allowance of claims 1-11 and 13-19 in the previous office action.

Response to Arguments

5. Applicants' arguments with respect to claims 1-19 have been considered but are moot in view of the new ground(s) of rejection.
